

Raihana Sakhi Aswanda

UI/UX Designer | UX Researcher

Surabaya, Indonesia | +62 858-5116-1298 | raihanasakhi027@gmail.com | <https://www.linkedin.com/in/raihanasakhiaswanda> | raihanasakhi.vercel.app

SUMMARY

Information Systems graduate (GPA 3.87/4.00) specializing in UI/UX Design and UX Research, with end-to-end experience designing multi-role mobile applications for government and public service sectors. Led the design of a livestock administration application for Dinas Peternakan Kabupaten Jombang that reached a System Usability Scale of 85.8-90 (Grade A, Excellent). Also builds in Flutter, designing with technical feasibility in mind. Finalist in two national UI/UX design competitions, and first author of a peer-reviewed paper applying the Double Diamond method to UI/UX design.

EDUCATION

UPN "Veteran" Jawa Timur

Bachelor of Information Systems, GPA 3.87/4.00

Surabaya

Sep 2022 – Jun 2026

PROFESSIONAL EXPERIENCE

PT Lima Benua Koneksindo

Front-End Developer Intern

Surabaya

Feb 2025 – Jun 2025

Hybrid role across business analysis, UI/UX design, and Flutter development.

- Designed 60+ screens for T-Space, translating stakeholder requirements into an interface that let users find and access public facilities in fewer steps, including user flows, wireframes, high-fidelity prototypes, and a reusable component library that kept the interface consistent as the application grew.
- Implemented approved designs in Flutter and delivered handoff with written specifications and reusable components, reducing clarification cycles during implementation.
- Ran requirement gathering with stakeholders and mapped business process flows to determine the most effective user journeys before design began.

Produktifkuy

External Relations Intern

Yogyakarta

Aug 2024 – Jan 2025

- Led the Ambassador Program as Project Officer, managing 50+ ambassadors through briefings and campaign evaluation; community engagement rose 40% and Instagram interaction 35%.
- Sourced 50+ prospective speakers and converted 25 of 100+ media partner leads into active collaborations, securing sponsorships from Wardah, Kahf, Avoskin, Luxcrime, and four other brands.

PROJECT EXPERIENCE

Ternovia - Multi-Role Livestock Administration Application

Undergraduate Thesis (UI/UX Design & Research)

2026

Figma, FigJam, Maze

- Led the end-to-end design process using the Double Diamond framework for three user roles, farmers, field officers, and government staff as verified livestock groups in Jombang grew from 52 (2021) to 139 (2024) while administration still relied on unintuitive digital forms.
- Interviewed 12 participants across all three roles and conducted field observation; 83% rated the existing system as unintuitive.
- Identified 25 usability issues through heuristic evaluation and iterated the design accordingly, eliminating all unfinished tasks in the second round of testing.
- Raised task effectiveness from 90.3-96.2% to above 97% (zero unfinished tasks) and reached a SUS score of 85.8-90 (Grade A, Excellent) published the process and results in an accredited national journal as first author.

EventU - Campus Event Platform

UI/UX Designer - Top 10 National Finalist, Technology Days #12

Sep – Nov 2023

Figma

- Designed 40+ high-fidelity screens with a complete design system for a campus event discovery and registration application themed around the Sustainable Development Goals.
- Conducted competitive analysis, built personas and empathy maps from student research, and ran Crazy 8 ideation; selected as one of ten national finalists at Universitas Ahmad Dahlan.

LEADERSHIP EXPERIENCE

GENERASA Indonesia - Head of Content Design Division (Volunteer)

Jan 2024 – Aug 2024

- Led a 13 member content design division managing task allocation, content timelines, and progress monitoring establishing a workflow that improved team effectiveness.

Youth Space - Head of External (Volunteer)

Jan 2024 – Jun 2025

- Led a 15 member division for 18 months, managing external stakeholder relationships and coordinating cross-divisional initiatives around shared objectives.

SKILLS

Design & Research: UI/UX Design, Interaction Design, Information Architecture, User Flow, Wireframing, Prototyping, Design Systems, UX Research, Usability Testing, Heuristic Evaluation, Accessibility

Tools & Development: Figma, FigJam, Miro, Maze, Draw.io, Canva, Flutter (Dart), HTML/CSS, Responsive Design, Git

Languages: Indonesian (Native), English (Intermediate)

CERTIFICATIONS & ACHIEVEMENTS

- National Finalist, UI/UX Design Competition "Technology Days #12" – Ahmad Dahlan University, 2023
- National Finalist, UI/UX Design Competition Fasilkom Fest-ADIKTIF – UPN "Veteran" Jawa Timur, 2024
- Junior Web Programmer Certification – Badan Nasional Sertifikasi Profesi (BNSP), 2025
